

Thom Bertrum Simbeye

+260 777 584311 | thomsimbeye@gmail.com | Git: TBS5596 | Lusaka, Zambia

Summary

Results-oriented Senior Software Developer with expertise in web development, operating system installation, and digital literacy. Proficient in Python Django APIs, Java Spring web apps, and versatile PHP development. Experienced in architecting complex integrations, including **ZRA Smart Invoicing** and **Mojaloop** connectors, and leveraging **Pandas** for data-driven reporting and interactive dashboards.

Technical Skills

- Programming & Frameworks: Java (Spring), Python (Django, Pandas), PHP, Node.js, HTML, CSS, and JavaScript.
- Database Management: MySQL, PostgreSQL, and Oracle.
- Integrations: ZRA Smart Invoicing, Mojaloop, Airtel Money API, API Development.
- Tools & OS: Git, Eclipse, Visual Studio, Pycharm, IntelliJ IDEA, Windows, and Linux.

Experience

Senior Software Developer | Iswe Solutions | Lusaka, Zambia

(11/2024 to *Date*)

- Collaborate with cross-functional teams to translate client needs into technical specifications and deliver high-quality, scalable web applications.
- Design, develop, and implement software solutions using Python.
- Customized and developed Odoo (ERP) solutions, including a custom payroll module designed to meet Zambian statutory requirements.
- Engineered the integration of Odoo with ZRA Smart Invoicing (VSDC) to ensure automated tax compliance.
- Deploy and manage project deployments in a Linux base environment.

Software Developer | Probase | Lusaka, Zambia

(06/2024 to 10/2024)

- Collaborate with cross-functional teams to translate client needs into technical specifications.
- Design and implement software solutions using Python and Django.
- Contributed to the development of an ERP using a custom Python framework.
- Utilized Pandas to read Excel data, store it in the system, and serve reports over API to create interactive JavaScript dashboards.

Software Developer | iZyane Inovsolutions | Lusaka, Zambia

(09/2023 to 06/2024)

- Design and implement software solutions using Python, Django, Java Spring, and PHP.
- Developed a core connector in Node.js to facilitate merchant payments by consuming Airtel and Mojaloop endpoints.
- Create and maintain APIs while ensuring functionality, dependability, and security.
- Conduct thorough testing, debugging, and troubleshooting of applications to ensure optimal performance.
- Stay current with emerging technologies, including Mojaloops, and integrate best practices.

Education

- Bachelor of Science in Information Technology | ZCAS University | Lusaka Province, Zambia

- Degree earned: September 2022.
- Graduated with merit following an extended project (Village Banking Support System).
